

Whatever happened to competition? Now, this is taking the form of what has been happening with satellite tv. I live in an area where I don't get radio. Satellite radio is the only way to keep me informed. I can't get local tv either because the government allows the cable companies to monopolize and penalize anyone who competes against them. Please don't let this happen to radio also. It really is my only access to local information.
PLEASE REJECT the NAB's petition 04-160.
Thank you.
